Big Draft Lottery Held Today in Washington

Telegraph Wires Busy Flashing Numbers Everywhere

The war department held the great draft lottery this morning which decided the fate of those who will be called to America's colors.

The drawing took place at 10 o'clock in the big committee room, the plan to hold the drawing in the chamber of the house of representatives being rejected, the main objection being that it would make a spectacle out of a solemn occasion.

Pamphlets explaining the system of the lottery were distributed just previous to the drawing.

All numbers sent out were officially checked and are absolutely correct. By tonight every man in the country will know his position on the conscription list.

Farrell Promoted By Water Company

Local Manager Lou Farrell of the East Bay Water Co., according to the company's official newspaper, has been promoted to superintendent of construction and maintenance for the Oakland division. Lou still retains the local job and is not inconvenienced in the least, for Lou fairly "eats work."

Farrell is one of the few men employed by a public service corporation who are popular with his patrons and co-workers. Mr. Farrell has earned his promotion—it was coming to him.

War Veterans Day To Be Celebrated

The East Bay camps of United Spanish War Veterans and Tien Tsun Post Veterans of Foreign Wars will hold a "War Veterans Day" at Neptune Beach, Alameda, Friday, July 27, day and evening, the proceeds being for the relief of widows and orphans, also dependent families of war veterans.

A program of military and other features timely with the war situation will be staged.

The local committee consists of A. P. Hanscom, J. H. McCourt, U.S.W.V., Angie B. Hanscom, Susan L. Mills Auxiliary, U.S.W.V.

According to the annual report of Miss Della Wilsey, the librarian, there are 16,492 books on the shelves of the main and branch libraries, and 5007 people drew books from the library. There was \$246.37 collected in fines, and it cost \$13,049.98 to operate the library the past year, of which \$3039 went for new books.

Defense Council Has Perfected Good Organization

The county defense council is awaiting orders to call together the citizens of their districts in all parts of the county for protection of the government against demonstrations by unpatriotic citizens.

The council has appointed heads of the districts as follows: Judge A. H. Mackinnon, Stege, Albert Wagner, El Cerrito, Oscar Long, Richmond, Herman W. Tuller, Richmond, Warren H. McBryde, Hercules, George H. Frazer, Pinole, M. Aguilar, San Pablo.

Upon these men will devolve the responsibility of seeing that citizens are gathered together in their sections and formed into armed organizations for protection. They have been instructed to call a meeting at which each section will elect a captain. These captains will be directly under the County Council of Defense which will issue orders. The captains will report at a meeting to be held next Sunday at Martinez.

One hundred men gathered at the call of Sheriff Veale to discuss the organization of home guards in Contra Costa county. Richmond had ten representatives at the meeting.

El Cerrito Candidates Appear on Horizon

Mrs. Grace E. Castner is a candidate for City Clerk of the proposed new municipality of El Cerrito.

Other candidates for election who would direct the affairs of the new municipality are George Adams, George H. Barber, Frank Rossin, T. J. Tinsant and Kirk Grey for treasurer.

The supervisors fixed August 16 as the date for the election, and at which time will be determined the issue of incorporation.

Board Reappoints Librarian Whitbeck

Mrs. Alice G. Whitbeck was reappointed county librarian Monday by the board of supervisors, her term ending in July, 1921.

Mrs. Whitbeck instituted the county library four years ago, and has kept pace with the growth of the county in her work of building up a fine library system. Under the present plan all small towns have access to the county library.

Dr. Blake and family are motoring through Oregon.

23,060 Men State War Draft Quota

California will furnish 23,060 men in the war draft by means of which 687,000 men will be chosen. This was formally announced by Secretary Baker. New York leads with 69,241 and Oregon is low with 717. California is allowed credit for 11,786 men who have enlisted since April 1st.

CITY BRIEFS

The Knights of Pythias will dance at East Shore tomorrow night.

The home guard had a drill at the First street ball park Wednesday night.

Annette Kellerman, star of William Fox's great picture, is coming to Richmond.

Dietrich Kaiser, 210 Chanslor, aged 86, died Friday, July 13. He was a former hotelkeeper.

The retail price of flour in Richmond is \$3.30 per sack. This is a slight drop in price.

L. L. Page has taken out a building permit to erect a house at Richmond avenue and Castro street.

Steges Presbyterians are preparing to enlarge their church to accommodate the fast growing Sunday-school.

Joe Lowsley, plumbing contractor, is now a forest ranger, employed by the government to protect the forests from fire.

Architect Claudius is drawing plans for flats estimated at \$6000. Attorney Wilbur Pierce being the owner. The building will be located between 9th and 10th on Pennsylvania ave.

Renwick, the electrician, is preparing to erect a brick business building between 11th and 12th on the north side of Macdonald. The building is to be 25x75. Contractor Morton will do the work.

Johnnie Meindersee, oldest son of Mr. and Mrs. A. Meindersee of Pullman, who spent the past year with relatives in Kansas, has returned to his home after a most enjoyable visit in the state where King Corn reigns.

George R. Calvert, manager of the local telephone company, and Miss Isabel McPherson, cashier for the same company, were married in Oakland, Friday evening, July 13. Mr. and Mrs. Calvert have a host of friends in Richmond and the bay cities who wish them bon voyage on the matrimonial sea.

PERSONAL MENTION

Mr. and Mrs. John Wood are at Lake Tahoe.

Mrs. Eugene Ford of Westwood is visiting friends in Richmond.

Mr. and Mrs. Harrold Garrard are spending their vacation at Shasta Retreat.

Mr. and Mrs. J. H. Plate are enjoying an outing of two weeks at Truckee.

Mr. and Mrs. C. Bradley and daughter Ida have returned from Pasadena.

J. F. Scholes of Pacific Grove spent Sunday in Richmond visiting his son Frank.

County Recorder Mike Hurley, has recovered from his illness and is again at his office.

Mr. and Mrs. E. M. Pearson, accompanied by Frank J. Frost and Miss Dorothy Davidson are at Camp Meeker.

Harry Pulse will leave for Oregon Tuesday where he will join Mrs. Pulse, who is spending the summer at Kent.

Maylays Have a Novel Dyeing Process.

C. W. Hennenberg of Albany, who spent three years in the employ of the Holland government as lithographer at Soerabaja, East Indies, had a good opportunity to see much of the life of the Maylays and study their customs and habits. Every month at full moon hunting parties were organized, Hennenberg and his companions crossing the channel to the Island of Madura, where the wild hog was pursued.

Mr. Hennenberg's description of glistening palms, hundreds of years old, and the innumerable varieties of tropical plants and flowers is interesting to those who care to hear some thrilling stories of adventure in the tropics of far away East Indies.

Mr. Hennenberg tells how the natives of the Island Madura manufacture dyes, which is quite novel and different from the American way.

After the natives have entertained at dinner the guests are seated on the ground in a circle. A large brass cuspidor is placed in the center, each guest is given two green leaves and a small piece of nut which is placed on the leaves, rolled and taken in the mouth to chew. The juice produced is expectorated into the cuspidor and is used by the natives for dyeing purposes, the color being a fiery red, impossible to wash out.

The natives, who spin their calico or linen on a frame, draw all kinds of grotesque figures with this dye, the price of some of the gowns made in this fashion reaching \$100.

Mr. Hennenberg had three natives working under him in the lithographing and stone printing establishment in Soerabaja, and speaks the Maylay language fluently.

Hobos and Rounders Must "Hit the Grit"

Sheriff R. R. Veale has instructed the home guard to investigate all suspicious characters. The guards are supplying themselves with arms, and are patrolling their respective territories. All persons who cannot give a good account of themselves will be put to work on the county roads.

It is figured that Richmond will furnish 145 men for the selective draft.

Returns From Sad Voyage to Ireland

Alfred Pillow, member of the firm of Pillow Bros., well known resident, has returned from a trip to Ireland, where he went several months ago to bury his mother, whose remains he accompanied to her native land where she requested to be buried. Mr. Pillow had a long and perilous journey, and is happy to be back in Richmond again.

Nose Biter Jailed; Bonds Fixed at \$1000

Kosta Kissin who became enraged at his wife Tuesday because she did not have his dinner ready, and bit off her nose, tearing the member completely from her face, was taken to the county jail Tuesday, in default of \$1000 bonds. The woman's condition is much improved. She presents a sad picture minus her nasal organ. It is believed that Kissin will receive the limit for his heinous crime.

Contractor Jim Long and Mrs. Long have returned from Ukiah and vicinity where Mr. Long has been filling some plastering contracts.

County Assessor George Meese is in Oregon enjoying his vacation.

Colorado Bean Crop Covers 245,000 Acres

Colorado claims to be the greatest bean producing state, and will harvest 245,000 acres this year against 38,000 last year. Each acre will average 1000 pounds of beans. This would make a total of 245,000,000 pounds, enough to supply every state in the union.

The Colorado potato crop is 20 per cent greater than last year; the wheat crop is 1,000,000 bushels greater. It is said Colorado could supply the allies with her quota of the food supply and still have enough to bring prices down to normal again.

Torrid Zone Claims Linotypist as Victim

Imperial Valley, noted for its wonderful resources in producing cotton, cantaloupes, hogs and alfalfa, is also noted for its intense heat at this time of year, June, July, August and September being banner months for Old Sol, whose solar heat will fry an egg almost anywhere in Imperial county at noon time, when the sun is "roasting" hot on the meridian. Fatalities from heat are becoming frequent there on account, it is said, of intense farming, irrigation and vegetation causing great humidity, which has undoubtedly made a change in the climatic conditions, and which causes the annual exodus to the ocean beaches and mountain resorts, almost depopulating the valley during the months above named.

A late victim of the intense heat was a linotype operator named Adams on the Holtville Tribune, who collapsed at his machine, and died the same day, not regaining consciousness.

Holtville is one of the prosperous cities of Imperial county, situated 40 miles west of Yuma, on the state highway and on a direct line with San Diego.

Don't forget the Shriner's Ball at East Shore Park, July 28th. It will be a big boost for Richmond Chapter of the Red Cross. The Santa Fe boys are boosting for this dance, and it promises to be the greatest dancing and social affair of the year. Don't miss it.

Mr. and Mrs. A. B. McVickers are taking in the Yosemite.

City's Servants to Get Increase in Salaries

F. W. Laufer Elected to High Office at Columbus

F. W. Laufer, the well known Oakland optician, who as a delegate is attending the annual convention of the National American Optical Association at Columbus, Ohio, was elected vice-president of the association, which honor came unexpectedly to Mr. Laufer, although he is one of the most prominent opticians on the Pacific Coast.

Mr. Laufer ranks high in his profession, and is considered one of the few whose reputation as an optician has become of national fame. He has held high offices in the State Optical Association, and was elected president last year.

Associated with Mr. Laufer at his place of business at 487 14th street, Oakland, is R. M. Card, also an expert optometrist. Mr. Card is secretary of the Alameda County Optical Association.

Mr. Laufer is visiting a number of the principal middle states cities on his return home, stopping off at St. Louis, Kansas City, Denver, Salt Lake and other cities.

G. L. Herrick, formerly a merchant of Mason City, Iowa, father of Mrs. A. C. Burdick, came west and located in Seattle. Several months ago Mr. and Mrs. Herrick came to Richmond to visit their daughter and son-in-law, and now they like Richmond so well they may make Richmond their permanent home.

Richmond's Tax Rate Fixed at 1.25 On \$100

Richmond's tax rate was fixed at \$1.25 by the city council Tuesday evening. This is five cents higher than last year. The five cents is required for the new Cutting boulevard and its maintenance, three firemen being required.

New conditions, increase in salaries, harbor work, and the h. c. l. are attributed to the raise from the old .72c rate.

City official salaries were all substantially increased excepting councilmen.

Policemen will receive \$100 after two years' service, and \$105 after 3 years' service. Sergeants \$110, inspector, \$115. Firemen same as policemen.

Social service bureau annual allowance, \$1000. Municipal band, \$600.

A Boost For Macdonald Ave.

West Macdonald avenue between First and Fourth streets is going to be the busiest section of Richmond in a few years. This statement was made to a Terminal representative in the Palace hotel lobby Tuesday by a director of one of Richmond's biggest corporations. This is a hint for some of the "restless" Market street, S. F., moved west. Nearly all large city business streets follow Hower Greeley's advice.

Macdonald avenue will grow east and west, and especially west, with magnets like the Standard Oil, the Santa Fe and the deep harbor to attract.

Keep your eye on West Macdonald ave. and Point Richmond.

Attorney Clare D. Horner has received word from the Buckeye state that another girl has joined his happy family. Although Clare is a Hawkeye, he is not averse to Buckeyes, especially the late arrival, who will soon return to the Horner home, accompanied by her mamma.

MAXWELL

LIOT E. BRADLEY

We have used Zerolene Oil almost exclusively in our garage and for the last two years and the satisfaction prompts me to recommend the oil very highly.

Very truly yours,
Liot E. Bradley

Gentlemen:

In answer to your inquiry, we wish to advise you that we have used Zerolene Motor Oil in Maxwell motor cars for over three years with excellent results, and do not hesitate to recommend it to Maxwell owners.

Very truly yours,
R. O. Clark.

"proven entirely satisfactory"

Zerolene, "a most satisfactory motor oil"—that is the testimony of the leading automobile distributors of the Coast.

They know from the records of their service departments—and we know from exhaustive tests—that Zerolene, correctly refined from selected California asphalt-base crude, gives perfect lubrication with least carbon deposit. Zerolene is the oil for your car—whatever the make—the oil for all types of automobile engines. For correct grade, get our Lubrication Chart covering your car.

Weekly Summary of World's News

CROWD APPLAUDS MAYOR AS HE DECLARES TWO-MILE BORE OPEN

Impressive Ceremonies Mark Completion of Great Engineering Work That Gives to San Francisco Big Area for Home Building

San Francisco.—Twin Peaks tunnel, the latest and one of the greatest of the public improvements ever completed in San Francisco, was dedicated last Saturday afternoon.

There was a double ceremony. The first was held at the west portal and the second at the east. For the first time the public was admitted to the two-mile bore, and as pilgrims traveling to the setting sun, hundreds walked through from the eastern entry to the west.

It was an occasion of congratulation and felicitation. Several thousand persons participated, and it was a time of rejoicing, for the reason that the opening of the bore means that there has been opened up a district in San Francisco which within a few years will draw back to this city a multitude of people whose interests lie here, but who have taken residence across the bay or down the peninsula.

M. M. O'Shaughnessy, City Engineer, was chairman of the day. Promptly at 2 o'clock the chairman, after a few introductory remarks, introduced Mayor James Rolph Jr. The Mayor spoke from a flag-decorated stand erected at the eastern portal, Eureka valley. He said in part:

"You have elected me the captain of your ship of state, but the captain cannot sail without a good crew. I have had a bully crew sailing the ship. This great tunnel was three years in the building, and there never was the slightest trouble in carrying out the original plans."

The Mayor paid a heart-felt tribute to Engineer O'Shaughnessy, to the Supervisors, the City Attorney's office and other branches of the city government, and added that all had worked harmoniously to accomplish the task of constructing "the last tunnel which reveals to the eyes of the people of the East the golden shores of the Pacific."

Concerning the matter of transportation by the tunnel route, the Mayor said that it was receiving the serious consideration of the city government. "We realize its importance," he said, "and we are going to try and solve the problem in the interests of the people of San Francisco at the earliest possible date."

Former Mayor P. H. McCarthy, the next speaker, said he was happy in the thought that by the construction of the Twin Peaks tunnel thousands of San Franciscans would be given the opportunity of building homes in this city instead of across the bay or down the peninsula.

"In behalf of thousands of wage earners, I thank Mayor Rolph and his administration for the fair treatment given the workers," he said. John L. McNab, representing the property owners of the West Twin Peaks district, called attention to the fact that the property owners of that district had taxed themselves to the extent of more than \$2,000,000 for the construction of the tunnel. He said:

"I was in Los Angeles when a call came to me to be present at this dedication. Strange to say, the Los Angeles newspapers did not mention a word about this tunnel opening. If Los Angeles had such an achievement completed, that city would have heralded it to the whole wide world as the greatest accomplishment in history's pages."

"I am here in behalf of the property owners of the West Twin Peaks district, of whom I am one, to say that the task has been a complete success that it has been finished."

Double.—Because of the excellent service rendered by the local Red Cross in the recent war fund drive, the officers have been advised by the department that because of the over-subscription, funds will be forwarded for use of the branch here in purchasing raw material for the making of Red Cross supplies in an amount equalling any portion of 25 per cent of the money sent in by them. The amount actually subscribed was something over \$12,000, and all expenses incurred in making these collections was paid by several benefits given during that week. Furthermore, the local branch had in its treasury about \$300, which amount is being expended for 150 comfort bags.

Forterville.—Dr. O. C. Higgins, chairman of the Board of Health, reports that an epidemic of measles during which more than a score of cases were reported, is now under control. There were no deaths. According to his reports the disease was of a very mild type. "An unusual feature of the epidemic was the large number of adults who were stricken."

Condensed California News

Merced.—The monthly meeting of directors of the County Farm Bureau was held in the city hall last Saturday.

Dinuba.—Some ten or more families left Dinuba July 13, going to the high Sierras, to the coast and distant resorts.

Tulare.—Charles Huff, employed by a local bakery, sustained a fracture of the right wrist while cranking an automobile July 13.

Kingsburg.—The big Kingsburg Cannery which was recently taken over from the growers in this district, and now owned and controlled by Kingsburg Cannery Company, finished its apricot run last Saturday evening and began preparing for the peach season. Over 500 tons of apricots have been canned thus far.

Merced.—Shoriff T. A. Mack was notified July 13 that Frank Burkholder, wanted here since April 4 on an embezzlement charge, has been arrested on a slacker charge in Okadale.

Santa Cruz.—H. C. Reid of San Francisco was elected president of the California Association of Electrical Contractors at the morning session July 13. J. Rodpath, also of San Francisco, was chosen secretary-treasurer.

Madera.—Fire July 13 destroyed the home on the William M. Hughes place, known as Matilda's vineyard. It was occupied by William Sanferson. All of the furniture was burned. Both the building and furniture were covered by insurance.

Redley.—Peter Christensen of this city has received word of the sudden death of his son, Arthur E. Christensen of Salt Lake City. He was but 43 years of age and was one of the most prominent attorneys of the State of Utah. He leaves a wife and three children.

Visalia.—Miss Mabel Edith Bode, daughter of Mr. and Mrs. J. A. Bode of this city, died July 12 at the home of her parents here following an illness of several months. Miss Bode was one of the most popular members of Visalia's younger set. She was born in Elgin, Ill., in 1882 and came to California in 1904.

Selma.—Selma Odd Fellows and Rebekahs held open house Friday night, July 13, for the installation of officers for the ensuing year, and were hosts to the lodges from Fowler and Centerville. The Rebekahs officers were conducted into office by the Powder team, and Centerville lodge installed the Odd Fellows officers.

Madera.—Philip Conley, son of Judge W. M. Conley, has returned from Harvard, and has made application to join the officers' reserve corps, which he hopes to attain. In the event of failure there, he will make application to join some other branch of the service, having decided to give up his collegiate career at least until the war is over.

Lindsay.—The new automatic switch board and new office furnishings and fixtures for the Lindsay Home Telephone and Telegraph Company have arrived and the new service will be installed Saturday night. The company will be located in their new brick building on Sonoma street where they are arranging one of the most attractive exchanges to be seen in the valley. The new board has 250 private drops with ten toll lines.

Turlock.—An agreement has been reached, it is understood, between City Attorney W. N. Graybill of Turlock, and Attorney L. J. Maddox of Modesto regarding the purchase by Turlock of the Santos building. The city offered \$1,000 for the building, and settlement has been agreed to for the sum of \$1,250. The building is located on city property near the Southern Pacific station and has been the basis for legal contention for about five years. It is understood the city will order the building torn down.

Clovis.—Clovis Union High School trustees met and made the final selection of the faculty for the next school year, as follows: Principal, T. L. Creech; mathematics, E. A. Wright; commercial, J. M. Cox; music, C. R. Chaney; manual training and science, G. D. Hornung; domestic science, Miss Belle Millward; history, Miss Harriet Tufts; languages, Miss Alma R. Gowell; English, Miss Hardin. It is expected that none of the Clovis schools will open before October on account of the fruit work, though no definite plans have been made.

Okadale.—There is still a foot of water coming over Goodwin dam so that the irrigation districts of Okadale and South San Joaquin have not found it necessary to call upon the Sierra & San Francisco Power Company for storage water as yet. Usually the water in the river becomes very low even before this time of the year, but this year the heavy snows have kept up the flow of the Stanislaus. Most of the ranchers are now cutting their third crop of alfalfa, and will get sufficient water for a fourth crop without recourse to the storage supply. The Okadale district has started installation of a pumping plant at Orange Blossom bridge which will add twenty second feet of water daily to the Okadale supply.

Turlock.—Fire July 13 destroyed an automobile and garage belonging to E. J. Barton in the east part of town.

Dinuba.—Charles R. Hurst and family, including his mother and grandmother, follow a truckload of supplies into the hills July 13.

Selma.—Fireman Charles Smith collided with a pedestrian while riding a bicycle to a fire July 13 and received a sprained knee in the fall.

Bakersfield.—Delegates representing the locals of the newly organized Oil Workers' Union of California met in their first convention at Bakersfield Tuesday morning.

Visalia.—A war on Tulare county rodents, including squirrels, rabbits and gophers, started Monday when the first meeting for discussion of the subject took place at Richgrove.

Tulare.—Tulare Aerie of Eagles adopted a motion July 13 that the lodge dues of all members of the Order in the military service of the United States be paid during the time of their enlistment.

Tulare.—E. M. Eldridge was appointed City Clerk of Tulare at a special meeting of the City Council July 13. Eldridge succeeds G. F. Leckner, whose resignation was tendered and accepted, to become effective August 1.

Clovis.—Clovis fishermen are having great luck at salmon fishing in the San Joaquin, and many housewives are undertaking to can the extra salmon, as a measure of food conservation. The experiments so far have been uniformly successful.

Palo Alto.—G. D. Smith, 75 years old and Grand Army man, died July 13 at the Peninsula Hospital after suffering for two months from injuries received in an automobile accident near Mayfield. Smith is survived by his widow, Lillian, and his stepdaughter, Anita Squires, Stanford student.

Modesto.—Shoriff George Davis arrested Geo. Solig, J. J. Harritty and W. Collins for peddling. The arrests were due to a scare at Turlock, where people believed the water infected. The sheriff secured a sample of the goods being peddled and will send it to the University of California for analysis.

Lindsay.—The City Council has awarded the contract for paving Elmwood avenue, from the Baptist church corner north to the Tulare road, to Waterswick & Co., who submitted the lowest bid. This will connect up with the new county road which will be built from the north by means of a private stretch recently built by popular subscription.

Corcoran.—Helen and Avarille Cunningham, daughters of Mr. and Mrs. R. R. Cunningham, 8 and 10 years old, are doing their bit in wartime. In a desire to be practical little patriots they have decided to have a daily nursery at the Cunningham home on Jepson avenue, where all babies will be tenderly cared for while their mothers may be working for the military relief branch of the Red Cross at the high school. The nursery will be open every day from 9 a. m. to 4 p. m.

Porterville.—Thomas B. Conell, secretary of the Business Men's Association, has placed in the hands of the members of the organization the first copy of the association bulletin, which is hereafter to be published fortnightly. In this bulletin is to be published each issue the names of those customers of the various mercantile houses who have refused to meet their current accounts. In addition it will carry a list of realty transfers, mortgages and other information of a like nature which will be of value to the members.

Santa Rosa.—By an order issued by Superior Judge Thomas C. Denny of Department 1 of the Sonoma county courts, the estate of Harry Hild Granice, one-time owner and editor of the Sonoma Index-Tribune, has been ordered distributed and the final account of the widow accepted. Since the death of Granice, two years ago, his estate has been in constant litigation, his daughter, Mrs. Celeste Granice Murphy, opposing the executorship of the widow, who was Granice's second wife, several years younger than he, and divorced twice before her marriage to him. Only a few hundred dollars remain in the estate for distribution.

Okadale.—Samuel W. Boice, a pioneer of California, died July 12 at the home of his daughter, Mrs. O. Z. Bailey, aged 83 years. He had been a resident of the State for over sixty years, crossing the plains from his birthplace, Kentucky, in 1854. With a group of associates he drove 600 cattle across the plains, landing here with 400. Mr. Boice first located in Tuolumne county, at Sonora, engaging in dairying for a few years, and later, buying the famous Golden Rule mine, which he operated for five years. He then moved to French Camp, and after two years to near Lathrop, where he purchased a grain farm. He later moved into the town of Lathrop, where he lived continuously until coming to Okadale five years ago, following the death of his wife, to make his home with his daughter.

HOUSE PASSES AIR-FLEET BILL IN FIVE HOURS

Kahn Urges Secrecy About this Country's Plans

Washington.—The War Department bill appropriating \$640,000,000 for construction of 22,000 airplanes was passed by the House late last Saturday without a roll call. It was amended only in minor details.

During the debate preceding passage of the bill, Representative Kahn of California urged secrecy regarding the details of the Government's programme and immediate action on the bill.

"England," said Kahn, "has been in war with Germany three years. England does not know today how many submarines Germany is turning out. Why cannot this country so far as its aviation force is concerned, keep its secrets so as to keep the enemy from getting any knowledge whatever as to what we are going to do to get control of the air?"

Kahn said that Japan was successfully keeping the details of her naval construction secret.

Representative Mann, amid cheering, declared that he favored passing the bill without a word of discussion.

Amendments adopted included one by Representative Lenroot of Wisconsin, limiting the broad authorities granted the executive for the present war emergency, and one by Representative Fitzgerald, New York, providing that enlisted men drafted for the aviation corps shall be within the same ages—21 to 30 inclusive—as apply in the general conscription law.

The bill, carrying the greatest aviation appropriation ever proposed in Congress and passed in less than five hours, evoked some criticism of legislative methods, but no attack on the general purpose.

Republicans criticised the Council of National Defense, the Senate and the Navy Department for published statements regarding the aviation programme and contracts for submarines.

Representative Kahn, Republican of California, pointed to Germany's secrecy of military programme and said that neighboring nations knew nothing of her 42 centimeter guns until they battered down the Belgian forts, or of Germany's deadly gases.

"But," he warned, "we seem to want to go to war as though we are going on a hunting trip with a brass band."

LANE ASKS \$4,000,000 FOR ALASKA RAILROAD

Secretary Appeals to Congress for Additional Money

Washington.—An additional appropriation of \$4,000,000 for the Alaskan railroad construction, to close a thirty-mile gap on the main line from tidewater at Anchorage to Seward and open up the Matanuska coal fields, was asked of Congress last Saturday by Secretary Lane with President Wilson's approval.

In a statement explaining the estimate, Secretary Lane said the money would enable the closing of the gap of thirty miles on the main line along the Turnagain arm and complete the line from Seward to the Matanuska fields and from Matanuska Junction northward to Talkeetna. This, he said, would cover most of the agricultural district and bring the rails to within a reasonable distance of Willow Creek and Cache Creek mining districts.

The railroad is now being operated seventy-one miles northward from Seward. The track has been laid southward ten miles from Anchorage to Rabbit Creek and northward sixty-one miles on the main line toward Fairbanks and twenty-four miles on the branch line from Matanuska Junction to Kings River, on the western edge of the coal fields.

All of these stretches of line are now being operated, and, the Secretary said, at the present rate of construction, track will be laid to the end of the branch at Chikiloon, the heart of the Matanuska coal fields, by September, giving a complete line from there to tidewater at Anchorage.

FIRST WHITE PERSON BORN IN ALAMEDA DIES

Alameda.—Dr. G. A. Christensen, 62, and the first white person born in the city of Alameda, died July 13 at his home, 1223 Post street. The house in which he died was the one in which he was born.

Christensen for forty years practiced dentistry in the Mission district of San Francisco. He is survived by his widow, Mrs. Caroline Troumpour Christensen, two daughters, Mrs. Florence Drouet and Mrs. Pearl Hopper, and two sons, Harold and Augustus.

UNCLE SAM'S APPEAL FOR FOOD IS ANSWERED BY CALIFORNIA

This Year's Crop of Cereals and Potatoes Is Estimated at \$100,000,000, Compared With \$47,000,000 For the Year of 1916

Sacramento.—Increase in prices, coupled with greater production, will bring California's crop of cereals and potatoes to a value this year of more than \$100,000,000, as against \$47,000,000 for last year, according to figures roughly compiled from the United States Department of Agriculture's comparative estimate and forecast of crop conditions issued July 1. Thus, there will be returned to California growers and dealers more than \$2 for every dollar they received last year. The prices on which the figures are based are those for July 1, 1917, and 1916.

Increase in output is responsible for more than \$20,000,000 worth of cereals and potatoes and the remainder of the difference between \$100,000,000 and \$47,000,000 represents increase in prices.

Cereals included in the figures are corn, wheat, oats, barley and rice. California is shown to have responded in the fullest degree to the appeal of Uncle Sam for more food stuffs. The crop summary shows that all crops have been increased over those of 1916.

The Department of Agriculture forecast shows a probable production of 5,180,600 bushels of rice, nearly two-fifths more than the yield of last year.

The wheat crop this year will be worth \$12,000,000 as against \$5,000,000 for last year's crop, the prices being based on those prevailing on July 1, both years, but the gigantic kingdom crop of California is barley, with a production of 38,000,000 bushels estimated this year against 33,000,000 last year. On July 1, 1916, barley was selling at 80 cents a bushel, making the value of last year's crop at that time \$27,000,000. Barley now is quoted at about \$1.34 a bushel, making the value of this year's yield more than \$50,000,000.

The prospective potato crop, based on July 1 figures, may be valued at \$25,200,000 as against \$11,450,000 for the crop of last year, based on July 1 prices.

The Department of Agriculture summary for California this year is as follows:

Corn—July 1 forecast, 2,580,000 bushels; production last year (December estimate), 2,045,000 bushels.

Oats—July 1 forecast, 6,100,000 bushels; production last year (December estimate), 5,600,000 bushels.

Barley—July 1 forecast, 38,000,000 bushels; production last year (December estimate), 33,320,000 bushels.

Rice—July 1 forecast, 5,180,000 bushels; production last year (December estimate), 3,263,000 bushels.

Potatoes—July 1 forecast, 13,900,000 bushels; production last year (December estimate), 10,575,000 bushels.

Sweet potatoes—July 1 forecast, 979,000 bushels; production last year (December estimate), 960,000 bushels.

All hay—July 1 forecast, 4,680,000 tons; production last year (December estimate), 4,615,000 tons.

Apples—July 1 forecast, 1,880,000 barrels of three bushels; production last year (December estimate), 1,918,000 barrels.

Peaches—July 1 forecast, 10,080,000 bushels; production last year (December estimate), 8,808,000 bushels.

U. S. CAN WAR ABROAD, SAYS WICKERSHAM

Chicago.—A report which attained considerable currency to the effect that former Attorney-General Wickersham had given an opinion that the United States was without authority to send citizen soldiers abroad was cleared up in a speech delivered before the Hamilton Club last Saturday by Judge K. M. Landis. First, Judge Landis read a telegram which he sent to Wickersham:

"The Kaiser boosters quote you as authority for the statement that the President of the United States without authority to send conscripted Army abroad. To what opinion do these liars refer? Answer my expense."

To this Wickersham replied: "Kaiser boosters must refer to my opinion February 17, 1912. Opinions A. G., volume 29, page 322, to effect that constitution limits use of militia to purposes defined paragraph 15, section 8, article 1. Therefore President without authority to send organized militia of states into foreign country as part of army of occupation. To avoid this objection national defense act of June 3, 1916, section 3, provided war drafting any or all of National Guard into service of United States, thus leaving the President free to send them where he wishes. Damn the Kaiser."

NATIONAL EDUCATION ASSOCIATION FILLS VACANCIES

Portland, Or.—When the board of directors of the National Education Association met last Saturday and disposed of several business matters which had remained unfinished they brought to a close the fifty-fifth annual session of the association.

J. W. Searson of Kansas Agricultural College was elected to membership on the National Council of Education, succeeding John MacDonald, deceased. Miss Agnes E. Dougherty of St. Paul was re-elected to the board of trustees. George B. Cook was elected to membership on the executive committee.

The executive committee voted to locate permanent headquarters of the association at Washington, D. C. Heretofore the home of the association secretary from year to year has been headquarters. Several vacancies on the National Council of Education were filled by election.

WOMEN DOCTORS SEEK ARMY RECOGNITION

San Francisco.—Women physicians of California want recognition in the Army medical corps on the same basis as men, according to several who are agitating the matter. In the East, it is said by Dr. Martha Welp-ton of Chicago, the women doctors are offering their services in whatever capacity they can be used, but California women desire the same rank and pay as male surgeons.

was selling at 80 cents a bushel, making the value of last year's crop at that time \$27,000,000. Barley now is quoted at about \$1.34 a bushel, making the value of this year's yield more than \$50,000,000.

The prospective potato crop, based on July 1 figures, may be valued at \$25,200,000 as against \$11,450,000 for the crop of last year, based on July 1 prices.

The Department of Agriculture summary for California this year is as follows:

Corn—July 1 forecast, 2,580,000 bushels; production last year (December estimate), 2,045,000 bushels.

Oats—July 1 forecast, 6,100,000 bushels; production last year (December estimate), 5,600,000 bushels.

Barley—July 1 forecast, 38,000,000 bushels; production last year (December estimate), 33,320,000 bushels.

Rice—July 1 forecast, 5,180,000 bushels; production last year (December estimate), 3,263,000 bushels.

Potatoes—July 1 forecast, 13,900,000 bushels; production last year (December estimate), 10,575,000 bushels.

Sweet potatoes—July 1 forecast, 979,000 bushels; production last year (December estimate), 960,000 bushels.

All hay—July 1 forecast, 4,680,000 tons; production last year (December estimate), 4,615,000 tons.

Apples—July 1 forecast, 1,880,000 barrels of three bushels; production last year (December estimate), 1,918,000 barrels.

Peaches—July 1 forecast, 10,080,000 bushels; production last year (December estimate), 8,808,000 bushels.

POLITICAL UPHEAVAL IN BERLIN ONLY BEGINNING

London.—Dr. George Michaelis, Prussian Under Secretary of Finance and Food Commissioner, has been appointed to succeed Dr. von Bethmann-Hollweg.

The message relating to the resignation of the Imperial German Chancellor was circulated through the wireless stations by the German Government and was received by the British Admiralty. It says also that the Emperor has accepted the resignation of Dr. von Bethmann-Hollweg and named Dr. Michaelis to succeed him.

Berne, Switzerland.—An official telegram from Berlin says that General von Stein, the Prussian Minister of War, has resigned.

The Prussian War Office is in reality the Imperial Ministry of War, performing the functions of that office for the empire.

General von Stein recently excited the antagonism of the Socialists by his pan-German activities opposing peace efforts.

PERISHING'S FORCES ARRIVE AT CAMP AT THE FRONT

Paris.—The vanguard of the American troops who left on Thursday, July 12, the seaport town where they have been encamped, arrived at their permanent camp last Saturday. The men went into training immediately.

Major-General Sibert, who will be in command of the camp, lunched with General Pershing before his departure for the front. General Pershing will follow later.

President Poincare reviewed the troops on the Vincennes field before they began their march. He was accompanied by Major-General Pershing, Ambassador Sharp and many members of the diplomatic corps and Government officials.

Selma.—Canning of local apricots came to a close last week at the Libby, McNeill & Libby cannery, but arrangements have been made for a further pack of lots by shipping in from other districts where the fruit ripens later. The new machinery which was installed in the plant this season has greatly increased the capacity of the establishment, and as some of it involved new ideas in cannery circles its successful operation has been watched with much interest.

U. S. FOOD IN LONDON SELLS LOWER THAN HERE

Washington.—Food prices in a leading London hotel were read to the House July 18 by Representative Madden of Illinois to show that steaks and other things imported from America are selling there for about one-third less than in the United States.

Editorial Comments
PRACTICAL HEALTH HINT.
Chronic Rheumatism. Although acute rheumatism may occur at any age, it is more common in adolescence or in early adult life; chronic rheumatism is essentially a disease of later life. It often attacks sailors and outdoor laborers, who apparently bring on the malady by exposing themselves to cold and wet or by overworking or failing to eat nourishing food. Treatment of chronic rheumatism is very unsatisfactory; no actual cure is known, and the most that can be done is to relieve the pain and stiffness during the attacks and try to prevent or delay their recurrence. Unless the pain is so bad as to call for an anodyne, much comfort can be obtained by rubbing and massage and the application of a hot water long to the joints. For constitutional treatment, in addition to internal anti-rheumatic remedies, benefit sometimes comes from a sojourn at a mineral spring resort. The patient should have a simple, nourishing diet and should avoid exposure to cold and damp weather.

Hotel Received Some Good Advertising at "Cut Rates"
It is said that the press notices given Tax Collector Martin Joost in regard to saving a certain summer resort from the flames has given said resort several thousand dollars worth of business, although not intentional on the part of Mr. Joost, as he is not in the ad. business. However there were "steep hundred lines of type used in publicity for the hotel, and if Martin can collect for same at the nominal adv. rate per line, and will "whack," there will be some vacant desks for a few days in newspaper circles.

ALBANY NOTES
Mrs. Christine Poggi is taking a ten days vacation.
Don't forget the Red Cross dance the proceeds of which go for a good cause. Wait for it.
Manager Holdum of the Albany theatre has some very high class attractions in view to put on, among them being the Annette Kellerman reel of pictures.
Sophie Wilson, El Cerrito's little dancer, will sing patriotic songs and dance for the old soldiers at the city hall, Oakland, Saturday evening, July 28.
Mr. and Mrs. C. Benton of San Francisco were Albany visitors Sunday. They are contemplating building a cottage on their Cornell street property, near Main.

City Marshal Glavinovich and Night Patrolman Charles Hardy initiated their new uniforms at the board meeting Monday night. Albany is in a "class by herself."
Mayor O. C. Marr presided at the meeting of the city board of trustees Monday night, having returned from his vacation a little sunburned, but feeling fine.
Mrs. Jennie Prizer has moved into her new residence at Madison and Washington. Cushing & Bingham, contractors and builders, did the work, which is A1.

Max Stanley is taking advantage of the situation—the demand for furnished houses. He is preparing his Adams street property for a prospective tenant, and will have little difficulty in securing one.
Albany has one of the best equipped fire departments for the size of the city in California. Good fire protection attracts home-seekers. This is evident, when one takes a glance at the many new homes that have been built this year, and the number now being constructed.

Dr. Chas. Sumner Young

Dr. CHARLES SUMNER YOUNG, who is touring the New England states in an automobile, sends The Terminal some interesting letters and pictures of that scenic and historic part of the U. S. He recently visited the birthplace of the late Admiral George Dewey, at Montpelier, Vt., the tenants of the house having no sentiment, the building being in a disgracefully dilapidated condition. Dr. Young says:
"While pointing the finger of scorn at the Germans for lack of sentiment and humanity, it would be most proper for the Green Mountain boys to give some attention to the birthplace of the hero of Manila Bay."

Contractor Hollenbeck Steps On Nail and Is Impaled
Contractor Hollenbeck while engaged in doing some repair work at the Main street school, met with a painful accident by stepping on a nail which projected from a board on the floor. It was necessary to stand on the board to extract the nail. Immediate attention was given the wound, which is healing nicely.

Maccabees Entertain; Give Bean Supper
The Maccabees of Albany are winning new members, and have one of the liveliest "hives of bees" around the east bay district. The members enjoyed a bean supper Wednesday night, Deputy Great Commander C. G. Kyle being the guest of honor. The sound insurance features of the Maccabees are increasing the membership at a rapid rate.

San Pablo ave. highway paving in Albany is about completed, excepting the bitulthie top, which will soon be completed when that part of the work begins. The paving company will soon complete the job when they start on this work, and then the highway will be a smooth roadway through Alameda and Contra Costa counties.

Miss Edna Vera Laird who holds the responsible position of prescription clerk at the Albany drug store, may not be connected with the store in a clerical capacity much longer. Mr. Thompson, the present proprietor, it is said, will dispose of his interest in the store and enter into the service of the U. S. army medical corps.

Mr. and Mrs. Bowman, who occupied the Von Rooker place, have moved to Oakland.

Let The Terminal do your Job Printing. Phone Richmond 132, and a representative will call.

RED CROWN GASOLINE
Easy Starting
A Continuous Chain of Boiling Points
High Boiling Points for power and mileage
Medium Boiling Points for quick and smooth acceleration
Low Boiling Points for easy starting
Low boiling points do it—the first links in a continuous chain of boiling points. Low boiling points for easy starting, medium boiling points for quick and smooth acceleration, and high boiling points for power and mileage.
Red Crown is a straight-distilled gasoline. Hence there's a continuous chain of boiling points, gradually rising from low to high.
Mixtures cannot have a continuous chain of boiling points. That's why mixtures cannot be as good motor fuel as pure straight-run gasoline. And that's also why the gravity test for gasoline is worthless—gravity tells nothing at all about boiling points, the only real test of gasoline quality.
To make certain of getting real gasoline, and not a mixture, fill with
